MEMORANDUM FOR: Director of Research and Development

FROM : James H. Taylor
Associate Deputy Director for Science
and Technology

SUBJECT : Tri-Services Advanced Agreement on Independent
Research and Development

REFERENCE : Memorandum for ADDS&T from C/PMS/DDS&T,
dated 5 April 1982; Subject: CIA Interface
with DoD Tri-Services Committee re Industrial
Contractors Negotiation of Advanced Agreement
on Independent Research and Development

The attached memorandum provides background on a situation which currently exists and which I view as detrimental to our best interests. It is important to us that DoD component services, who negotiate independent research and development agreements with industrial contractors, are aware of those areas in which we have an interest. Therefore, I would like to ask that you accept responsibility on behalf of the Directorate for reviewing independent research and development proposals submitted by contractors for relevance to our needs, consulting with other offices as appropriate. I have established Chief, Procurement Management Staff, as the coordinating point with the DoD Tri-Services Committee and have instructed him to work with you to assure that an appropriate, secure, and formal relationship is established and maintained.

25X1

James H. Taylor
